Create IBM Cloud Account:

The screenshot displays the IBM Cloud Dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links to Catalog, Manage, and the user's account (Nivethitha S's Account). The main section is titled "Dashboard" and includes a "Create resource" button. Below this, there's a "For you" section with several cards: "Build" (Explore IBM Cloud with this selection of easy starter tutorials and services.), "Set up your IBM Cloud account" (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources.), "Get Started with Watson Studio" (Get started with using AI and Cloud Object Storage in 15 minutes.), "Build a web app with Watson Speech to Text" (Deploy a conversational interface compatible with any application, device, or channel.), "Build a Virtual Private Cloud (VPC)" (Upgrade to a paid account to create your own protected space in the IBM Cloud.), and "App Connect" (Instantly connect applications, data, systems and modern technologies, even single line of code, App Connect.). Each card has a "Getting started" button and a time estimate. Below the "For you" section, there are four more cards: "News" (IBM Adds Lifecycle Services to Enterprise Networking and Deepens Strategic Partnership with Cisco, All About IBM Storage's Price and Supply Guarantee, IBM Tech Now: November 7, 2022, Unified Key Orchestrator Now Supports Easy Multicloud Key Management for Google KMS), "Recent support cases" (You can view a summary of your support cases here after you submit them. Learn more about how to get support.), "Planned maintenance" (Clear skies! You can view your scheduled maintenance events here.), and "IBM Cloud status" (No issues). The "IBM Cloud status" card features a world map and a "No issues" message with a green checkmark.
